

**THANK YOU FOR PURCHASING  
ERICA SYNTHS BLACK SERIES  
MODULE!**

These are high-end modules with unique functionality. Only the highest quality components are used and all inputs and outputs are protected against undesired overvoltage. When designing the Black Series, we did not economise on the module width, we put design and usability first. Big knobs are assigned to functions that make difference in sound. The Erica Black series are a range of modules that together make an entire synthesizer. Enjoy!

**The Erica Black Output Module**

is a high quality output mixer and stereo panner with balanced outputs and headphone amplifier for monitoring your modular masterpieces. All inputs are buffered, we use stereo potentiometers (found in high quality studio mixers) for panning, IN4 is stereo input with simultaneous level adjustment for both channels, IN3 has a CV controlled autopan function. You will find 6.3mm jack for the balanced outputs and headphones.

**SPECS:**

Input level .....-10V - +10V  
 Pan CV input level.....-10V - +10V  
 Phone amp out power.....100mW  
 Power consumption.....+52mA, -43mA  
 Module width.....14HP  
 Module depth.....35mm

These knobs are for manual stereo panning for INPUT1 and INPUT2.

These knobs adjust input signal level.

INPUT3 has CV controlled autopan option, and this knobs attenuates panning CV level.

Apply INPUT3 panning CV here!

Patch audio signals from four different audio sources here! INPUT4 is stereo input, and if you patch only Left channel, the signal is automatically routed to the Right channel

Adjust the master output level.

Adjust the phones volume independently from master level.

Plug monitor headphones with 6.3mm jack here!

These are balanced outputs for Left and Right stereo channels.

## SAFETY INSTRUCTIONS

Please follow the instructions for use of this Erica Synths module below, 'cause only this will guarantee proper operation of the module and ensure warranty from Erica Synths.

Water is lethal for most of the electric devices, unless they are made waterproof. Erica Synths module is NOT intended for use in a humid or wet environment. No liquids or other conducting substances must get into the module. Should this happen, the module should be disconnected from mains power immediately, dried, examined and cleaned by a qualified technician.

Do not expose the module to temperatures above +50°C or below -20°C.

Transport the instrument with modules installed carefully, never let it drop or fall over. Warranty does not apply to modules with visual damages.

The module has to be shipped in the original packaging only. Any module shipped to us for return, exchange and/or warranty repair has to be in its original packaging. All other deliveries will be rejected and returned to you. Make sure you keep the original packaging and technical documentation.

You will find Erica Synths terms of warranty at <http://ericasynths.lv/en/terms/>

Items for return, exchange and/or warranty repair have to be sent to: Erica Synths, Andrejostas Str.12, Riga, Latvia, LV-1045

## DISPOSAL

This device complies to the EU guidelines and is manufactured RoHS conforming without use of led, mercury, cadmium and chrome. Nevertheless, this device is special waste and disposal in household waste is not recommended.

Designed and made in Latvia.  
User manual by Girts Ozolins@Erica Synths.  
Design by Baiba Stelle.  
Copying, distribution or any commercial use in any way is prohibited and needs the written permission by Erica Synths.  
Specifications are subject to change without notice.
