

## SAFETY INSTRUCTIONS

Please follow the instructions for use of the Erica Synths module below, 'cause only this will guarantee proper operation of the module and ensure warranty from Erica Synths.

Water is lethal for most of the electric devices, unless they are made waterproof. This Erica Synths module is NOT intended for use in a humid or wet environment. No liquids or other conducting substances must get into the module. Should this happen, the module should be disconnected from mains power immediately, dried, examined and cleaned by a qualified technician.

Do not expose the module to temperatures above +50° C or below -20° C. If you have transported module in extreme low temperatures, leave it in room temperature for an hour before plugging it in.

Transport the instrument carefully, never let it drop or fall over. Warranty does not apply to modules with visual damages.

The module has to be shipped in the original packaging only. Any module shipped to us for return, exchange and/or warranty repair has to be in its original packaging. All other deliveries will be rejected and returned to you. Make sure you keep the original packaging and technical documentation.

This device complies to the EU guidelines and is manufactured RoHS conforming without use of lead, mercury, cadmium and chrome. Nevertheless, this device is special waste and disposal in household waste is not recommended.

You will find Erica Synths terms of warranty at [www.ericasynthslv](http://www.ericasynthslv)

Items for return, exchange and/or warranty repair have to be sent to:

Erica Synths  
Andrejostas Str. 43  
Riga  
Latvia  
LV-1045

Specifications are subject to change without notice.

In case of any questions, feel free to contact us through [www.ericasynthslv](http://www.ericasynthslv) or via e-mail [info@ericasynthslv](mailto:info@ericasynthslv).

## THANK YOU FOR PURCHASING ERICA SYNTHS DRUM MODULE!

Erica Drum Series modules include high-end, unique functionality and superior quality modules, which allow you to design extensive, feature rich modular system for sound design and live performances.

Erica Synths Drum Mixer with extended headroom and a dedicated drum compressor of unique design keeps each drum sound clearly distinguishable and adds power to the final mix. Bonus feature – effects send output allows to apply external effects to the signals on the first three inputs. LEDs next to each input give visual feedback on a signal level.

## FEATURES

7 inputs

Built in vactrol based drum compressor with

Amount and Decay control

+6dB signal boosting

Three inputs assignable to main or aux send outputs

Main and Aux Send outputs

Signal level indicator LEDs

## SPECS

Mixer gain	-+6dB
Power consumption	65mA @ +12V, 41mA @ -12V
Module width	14HP
Module depth	35mm

# MIXER

### IN1 - IN7

IN1 - IN7 potentiometers adjust signal level on relevant inputs.

LEDs give visual feedback on signal level after input potentiometers. LEDs lit when signal reaches 5Vptp

### A+M

Use switches to assign the first three inputs to Main or to both Main and Aux Send outputs

### IN

These are the Audio inputs. The input signal can be boosted for +6dB with the level potentiometer knobs full CW

### COMP AMT

Adjust compression amount to your taste!  
Note that maximum compression amount settings may result in more noisy output

### RELEASE

Adjust compressor release time to your taste!

### AUX OUT

This is the effects send output

### MAIN OUT

This is the main output of the mixer
